

TrialBoard / SYNTHETIC WORKFLOW DEMO

NOT A CLINICAL STUDY. NOT HUMAN OR EXPERT REVIEW.

Invented values test the software connection only. They are not patient data or drug evidence.

Demo review confirmations are automated fixtures. No model provider is contacted.

Invented observation 1

asset DEMO-01; indication demo-tumor; study DEMO-STUDY; cohort expansion; dose dose-A; metric response; events 6; denominator 20; population evaluable; window week-12; definition response-definition.

Invented observation 2

asset DEMO-01; indication demo-tumor; study DEMO-STUDY; cohort expansion; dose dose-B; metric response; events 7; denominator 20; population evaluable; window week-12; definition response-definition.

Invented observation 3

asset DEMO-01; indication demo-tumor; study DEMO-STUDY; cohort expansion; dose dose-A; metric adverse_event; events 2; denominator 20; population evaluable; window week-12; definition adverse_event-definition.

Invented observation 4

asset DEMO-01; indication demo-tumor; study DEMO-STUDY; cohort expansion; dose dose-B; metric adverse_event; events 5; denominator 20; population evaluable; window week-12; definition adverse_event-definition.
